

CODEBOOK FOR 2016 SURVEY OF HOUSEHOLD ECONOMICS AND DECISIONMAKING

The codebook serves as the principal guide to the variables included on the public version of the 2016 Survey of Household Economics and Decisionmaking (SHED) data set.

The SHED is sponsored by the Board of Governors of the Federal Reserve System. Data for the 2016 SHED were collected by GfK using their online probability based KnowledgePanel.

For a general overview of the 2015 SHED and a detailed discussion of the survey methods, see Jeff Larimore, Alex Durante, Christina Park, and Anna Tranfaglia, "Report on the Economic Well-Being of U.S. Households in 2016," Federal Reserve Board.

The variables in the codebook are generally in the order in which the questions were asked during the survey. For a copy of the survey questionnaire, see "Appendix 1" of "Report on the Economic Well-Being of U.S. Households in 2016."

CaseID

Case ID

CaseID is preserved across years for reinterviewed respondents and can serve as the unique identifier for merging
